

Welcome to Care Home Friends and Neighbours!

Thank you for registering with us!

We're delighted that you want to be part of Care Home Friends and Neighbours (FaNs): A national project that supports care homes who want to develop their relationships with local communities. Stronger community links can help provide a better quality of life for your residents, relatives and staff.

This project is about helping you put your ideas into action. We've created three easy-to-take steps to help you develop your community connections.

Your Care Home FaNs pack contains a few goodies that will help you on your way including a poster that describe the steps. If you need more, then please do ask!

Our website is designed to be a friendly place, you can keep track of your progress, pick up tips and share stories.

We want to know how you are getting on, so do stay in touch!

With very best wishes

Jennifer Lindfield
